### Court Program

Motor vehicle crashes are the leading cause of death for young adults, and the numbers are climbing. Teen drivers are nearly three times more likely than drivers age 20 and older to be in a fatal crash.

Alive at 25<sup>®</sup> is a highly interactive program that teaches young adults how to make safe, respectful and legal driving decisions. Designed for drivers under age 25, the program teaches young drivers how to take control of situations by taking personal responsibility for their own actions, attitudes and driving behaviors.
